PHP Extensions Locations For .so Files

PHP stores its .so extension files in /usr/lib/php/ then the API version of PHP. For ease of use, they have been listed here as they are not listed on any site.

- **PHP 8.0:** 20200930
- **PHP 8.1:** 20210902
- **PHP 8.2:** 20220829

If you need it and you can't find it, run **php -i | grep API** and you will see the API number:
