Press Assets & Media Presence - Colour Profiles & Our Imagery

Our main colours we use at Jasmeow.Systems are below. Please use these when creating a role such as "System Admin(s)" in your staff or public Discord. Do note we prefer the management role colour.

- Management Role - **#bc6af8**
- System Admins Role - **#ff5a00**

These are the main logos. One is the main circle with the circuit board and one alone with the circuit board. We recommend using the logo for websites and the main board for Disc

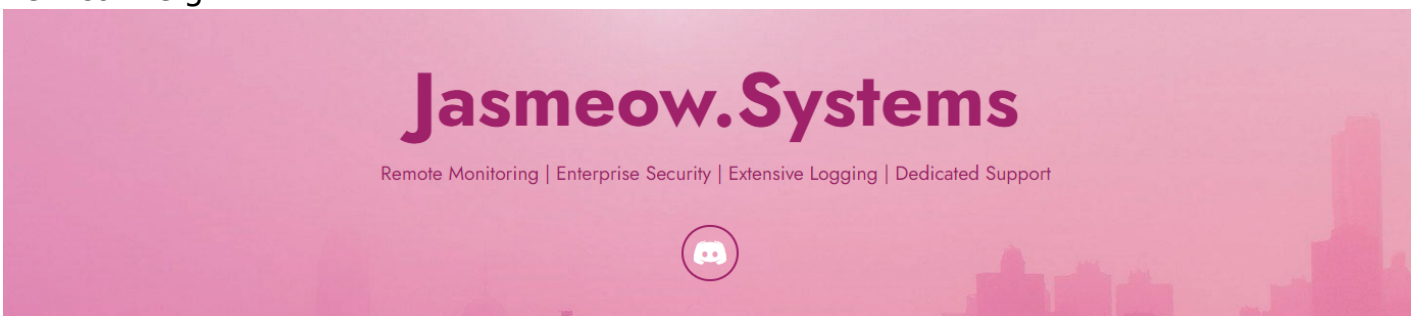

Our main Discord banner that's embedded from https://jasmeow.systems is below. This appears at the top of our main Discord and other such promotional material.

The website header banner below is used for landscaped locations such as YouTube, thread designs and other such positions which need extended banners with less vertical height.

For sites such as BuiltByBit or other threaded forums which make use of sidebar banner advertisements, we use the following below promotional matieral.
